

## Country & City Managers

**Mixtable** matches two groups of friends – 3 girls, 3 guys– and brings them together for fun nights out. Mixtable is a young Munich-based business with support from the Rock Centre at the Harvard Business School and the Strascheg Center for Entrepreneurship. We are currently present in seven German cities, and about to conquer the rest of Europe. This is where you come in!

### You want

- To take on some real responsibility in a very independent environment
- To build your own team in a quest to conquer Europe
- To finally get paid to have a drink in your favorite bars
- A real challenge that everyone else would think is beyond your capabilities –you are ready to prove everyone else wrong!

### You are

- Energetic – your friends always wonder how you can do so many things at once!
- Entrepreneurial – never afraid to try out new things!
- Outgoing – meeting (and convincing) new people of your ideas doesn't take any effort, because it usually just happens

### At Mixtable you will

- Take charge of introducing Mixtable to a new city or even an entire new country
- Work with the web team on implementing the country specifics
- Develop (and execute!) the marketing campaigns that introduce Mixtable in your region

If this all sounds just a tiny bit like you, **send us an e-mail now** to [jobs@mixtable.com](mailto:jobs@mixtable.com) with your key information (no need for long essays – we like those too, just not during the week). Or just give us a ring anytime if you want to find out more (+49 89 9545 7015 0).

**More information is available on our website [www.mixtable.com](http://www.mixtable.com).**
